

Every gestational carrier who comes to us is unique. Becoming a surrogate is a truly enriching endeavor. Although we can never give you enough to equal the measure of the gift you are giving, we like to spoil you with our best benefit package, best support system and best protection program.

## Best Benefit Package

- One of the highest basic compensation in the market.
- Babytree has the most comprehensive benefits package of any agency.  
At Babytree, we understand the monumental emotional, physical and mental commitment our surrogates -and their families -bring to each and every surrogacy journey. Our compensation and benefits program was created for surrogates, by surrogates; and provides the utmost security, benefits and protection of any surrogate program.
- If there is something in our benefits package that doesn't work for you -or you feel something is missing -we are happy to craft a compensation package that's personalized to your circumstances. Plus, if you find a payment or benefit at another agency that better fits what you're looking for, we'll do our best to match it!

## Best Support System

- Our case coordinators are experienced surrogates, so they understand what you really need
- One-on-one 24/7 Support: Our one-on-one case management system will guide you throughout every step from screening, legal process, embryo transfer, to delivery. Furthermore, we are available for you 24/7 to take care of any emergency immediately.
- You can reach us via email, call text us
- One-on-one professional psychological support starts from legal clearance till 2 months after birth; can last until 6 months after birth if needed
- You will be assigned with one case coordinator who will support you throughout the journey
- Monthly group meeting events to support you
- Pampering & relaxation sponsored event for every legal clearance of the surrogate mother
- If you are not satisfied with your assigned case coordinator, we will replace one for you anytime
- If you are not qualified to be a surrogate yet, we will work together to make it happen

## Best Protection Program

The Babytree protection program was created because we truly care about our carriers, and we want each of them to have the most successful and rewarding journey possible. In the past, our carriers shared thoughts and improvements with their therapist, or during their exit interviews, and we took all of those conversations and suggestions to heart and improved our compensations for our gestational carriers.

- No medical bill liability:  
If you receive any medical bills after the trust account is closed, agency will settle the bills
- If the Intended Parents refuse to pay any relevant bills, including insurance lien, Agency will settle the bills
- Agency will rematch you if it's a failed transfer or there is a miscarriage
- Make sure you get your payment on time and in full
- If Intended Parents decide to abandon the child or request abortion, the surrogate mother is not comfortable with that, even she has agreed the terms in the contract. Agency will find family to adopt the child and still pay for the owed compensation if you would like to give birth the baby.

- We work hard to give you the best experience and will help you pair with Intended Parents with good quality,so the high transfer success rate can be guaranteed.
- If you are paired with Hepatitis B positive Intended Parents, or if the embryos are STD infected,you will get an additional \$3,000,whether or not the transfer is a success
- If you are paired with HIV positive Intended Parents,you will get an additional \$10000,whether or not the transfer is a success
- Protection of your privacy,we will ask your full permission before posting on social media
- We will assist in paring you with Intended Parents who are sincere and will try to get you a successful match within 3 video interviews with intended parents,ideally just one interview.
